

## AMP SOLUTIONS LIMITED

We, AMP Solutions Limited (registered under **Ministry of Corporate Affairs Government of India**), an ISO 9001:2000 certified company, are leaders in the field of IT-Education and provide Job-oriented training in Computer Software, Hardware, Networking and Telecommunication system in India for the last two decades. AMP Solutions had the collaborative arrangements with **Punjab InfoTech**, a venture of **Government of Punjab**, for providing technical & academic support for providing technical education to youth. We have entered into similar agreement with **Indian Red Cross Society**, Punjab chapter, for providing technical education to youths.

Presently we have entered into collaborative agreement with Tally Champs, Biz Incubators and Information Technology Council Mumbai to add more vocational training programs for the youths.

We have **PAN INDIA PRESENCE** with more than five hundred Education Partner Centre and more and more centres are adding every month.

Apart from above, we have started an **ITI** (Industrial Training Institute (Center)) in a rural area at Kharar (near Chandigarh) to provide technical and employment oriented training to the rural masses. It is affiliated with Director General of Employment & Training **Government of India** and **Punjab Technical Education Board**, Chandigarh.

We are running a **CBSE School** at Rampura, district Bathinda, Punjab.

We are registered with **DDU-GKY** (DEEN DAYAL UPADHYAYA GRAMEEN KAUSHALYA YOJANA) as **PIA** (Project Implementing Agency) wide PIA No.-PJ2014CR4257.

We are registered with **RASCI** (Retailers Association's Skill Council of India) as Training Provider under **PMKVY** (Pradhan Mantri Kaushal Vikas Yojana).

We are registered with **NDLM** (National Digital Literacy Mission) Department of Electronics and Information Technology Ministry of COMMUNICATIONS & Information Technology, Government of India, as Training Provider.

We are registered with **MANAS** (Maulana Azad National Academy for Skills) An autonomous Organization of National Minorities Development & Finance Corporation; **Ministry of Minority Affairs, Government of India**-as **PIA** (Project Implementing Agency) for conducting the Entrepreneurship & Skill Development Programme (**E & SDP**).

We are Training Partner of **National Skill Development Corporation** (NSDC) for PMKVY.

We are registered with **Government of India, Ministry of Micro, Small and Medium Enterprises** wide registration No. UDYAM-CH-01-0001931

## 28 Years of Excellence in Technical, IT & Vocational Training

- p) Automotive Repair

### 2. Training Experience

More than Twenty Eight years in the above mentioned area of training.

### 3. Total Trained manpower

Above thirty five Thousand (35000) in the field of Electronics & Communication, Audio/Video Products, IT & IT Enabled Services

### 4. Placement

More than 98%, Details shall be provided as and when required

### 5. Employment opportunity and pay

Through our own Placement Cell Salaries are decided subject to the norms and the Procedure of the Employer and competency level of the candidate.

## 28 Years of Excellence in Technical, IT & Vocational Training

### **COMPANY PROFILE**

We with Royal Institute of Electronic Engineering, Sector 34 Chandigarh a sister concern of AMP Solutions Limited during the two decades, have been facilitating training and certification in Computer Hardware, Software, Networking, Telecommunication, Mobile Telephony, TV and Audio-Video Technology and other skill development courses.

As on date, we have stream lined curriculum and achieved a good standard of teaching as we employ dedicated and qualified staff. Class room educations with realistic field training receive equal and balanced attention.

Apart from ordinary students the students from Engineering Colleges, Polytechnics and ITI's have undergone advance courses cum project studies with our respective centers. Students, who have been trained by us, got immediate placements or have taken to self-employment.

In support of the above, prospectus and education material published by us are enclosed for your perusal.

It is noteworthy to highlight that our institutions have recognition of the Government and we continue to live up to their expectations.

### **The purpose**

The purpose of the organization is to **“create employment opportunities”** for the youth even after a basic qualification like Matric and +2 standards.

We are committed to social cause with the vision to start, need based practical training to bring a maximum number of youth in to technical field to enable them to earn their livelihood in this era of competition.

Till date we have given the employment based technical education to more than twenty five thousand students and it is our pleasure to say that with the grace of almighty all of them have been employed except a few who really do not want to work.

### **JOINT VENTURES**

1. We had a joint venture with Punjab Information & Communication Technology Corporation Limited (A Punjab state Government undertaking). We jointly created the banner of “CAL-C Technology Learning” to provide Technical Education in Computer Hardware & Networking, and Cell Phone Technology. We developed A to Z system i.e. Pre and Post sight inspection and recommendations, Infrastructure requirements, centre management system, course-ware, pre selection and training to centre owners for business development, counselors and faculty of the centre, Examination system etc. for the same and developed more than a hundred centers in the States of Punjab, Himachal Pradesh, Haryana, UP, Rajasthan etc.

2. Indian Red Cross Society Punjab state branch has also signed MOU with us to extend the same facilities and education through their centers in Punjab state.

## 28 Years of Excellence in Technical, IT & Vocational Training

### **The Experience**

We are in this field for almost two decades earlier under the banner of Royal Institute of Electronic Engineering Chandigarh. Being an ISO company we believe in international status of education only. Eminent persons, Technocrats and Educationist are on the roll of our Advisory Council, who provide us leadership and broaden our vision for the service of mankind.

### **The Study Material**

All the study material has been developed in house. Experienced professionals have been engaged to design the study material to meet with the demands of Industries and Trade. The training courses include training in Computer Hardware, Software designing, Networking, Telecommunication, Radio and Television etc.

### **The Staff**

We have achieved good standards by employing intelligent and dedicated teaching staff committed to our students. Classroom training and field training receive equal importance and attention of our training programs.

### **Other Features**

The training program is not only for ordinary students but we, also have job oriented practical advance courses for those students who are from Engineering colleges, Polytechnics and I.T.I. to help them to get jobs immediately.

### **Employment Opportunities for students**

As per available data millions of computers will be installed in India in the coming years. This certainly will require the technical force too, which will only be provided by the Hardware Training Institutes.

As per our experience of almost two decades, the students trained in these courses immediately get the jobs or take to self employment. Since the education given at our centers is of practical training type, we happily announce that almost all our students are successfully placed. The rate of employment in our students is more than 98%. It is also notable that some of our students, who are basically +2 passed, are able to earn more than rupees fifty thousand (Rs/- 50,000) per month.

It is noteworthy to highlight that our Institutions have recognition of many government departments and we continue to live up their expectations.
